

GCSE Results 2022

Students at Fitzharrys School today celebrated their superb GCSE results.

There are some exceptional results for individual students. Fitzharrys staff are incredibly proud of the whole year group's results.

With a provisional overall progress score (P8) of +0.54, students have demonstrated high levels of aspiration, determination, and skill, to achieve record breaking results.

The number of students achieving a 4+ in English and Maths is 86%, which is a 21% increase on our 2019 figures. The number of students achieving a 5+ in both English and Maths is 63%, which is a 20% improvement on our 2019 figures.

Following two years of COVID-19 disruption, these results are a credit to the students who worked so hard, staff at the school who prepared them with such expertise, and parents who supported them so adeptly.

It has been a privilege to see such positive outcomes and happy faces for Fitzharrys students. We look forward to seeing their future success as they take their next steps. Many will be returning as part of JMF6 Abingdon, while others pursue bright future with apprenticeships and college courses.
