

Results 2021

This week we celebrated the achievements of our GCSE and A level students as they received their results. This followed a challenging two years amidst so much COVID-19 disruption to their lives and their education. We are incredibly proud of what they have achieved and delighted to be able to celebrate with them this week.

Not only has this been a challenge for students, but also for the staff and parents who have supported them so brilliantly. Our thanks go to everyone who has worked towards our students achieving so much.

We sent our year 11 student off to the next stage in their education with great pride. Many will be returning in September as part of JMF6 Abingdon. It was wonderful to see students signing shirts, thanking their teachers, and, most importantly, enjoying their success.

We know there are great things to come for them, as Tuesday's A level results day showed. As JMF6 students opened their results their amazing efforts were rewarded with places on apprenticeships, employment and at university. We look forward to hearing about further successes that JMF6 alumni have, including Eleanor Tuson studying Biomedical Sciences at the University of Reading, Rosa Diss studying Law at UCL, Ben Dowsett studying Maths at the University of Exeter, Jack Easton studying Astrophysics at Cardiff University, Caleb Pell studying Economics at the University of York, Beatrice Semple studying Theatre at the University of York, and Holly Washbrook studying Mathematics at the University of York.

This is just a flavour of the achievements of our students; congratulations to everyone and thank you to all those who have helped them get there.
